

Mitipi Welcomes Industry Experts as Strategic Partners

Fribourg / Wil, December 20, 2024 – Swiss company Mitipi AG, renowned for its innovative security solutions, is strengthening its position through a strategic partnership. Maurice Weber, founder and chairman of the Weber Group (www.wpag.ch), along with Andreas Pazeller, a member of the management team at W+P Weber and Partner AG, have joined Mitipi as strategic partners.

This development follows Mitipi AG's recent win of the **2024 European Security Award**, which recognized its groundbreaking preventive security solutions, particularly the presence simulator **KEVIN®**. Widely appreciated by police forces in Switzerland and the United States, KEVIN® has proven to be an effective tool for burglary prevention in private households. With this new partnership, Mitipi aims to expand its preventive impact into the industrial and real estate sectors.

Patrick Cotting, CEO of Mitipi AG, highlights the importance of this collaboration: "The involvement of Maurice Weber and Andreas Pazeller is a key step in advancing burglary prevention in the industrial sector through AI-powered solutions. Together, we are creating added value for companies seeking modern, effective, and privacy-compliant security solutions."

Mitipi, in collaboration with its new strategic partners, plans to strengthen its security offerings for businesses and provide innovative protection concepts tailored to their needs.

Mitipi leverages artificial intelligence and cutting-edge technology to deliver comprehensive safety across all areas of life. This partnership with the Weber Group underscores the trust in Mitipi's innovative capabilities and growth potential, marking a significant milestone in the company's history.

About the Weber Group:

The Weber Group is a leading Swiss planning company with international reach, specializing in smart and sustainable logistics, infrastructure, and industrial construction solutions. With over 20 years of experience, the group develops innovative and efficient projects for clients in commerce, industry, retail, and public institutions. Supported by a strong team of over 130 professionals across Switzerland and Germany, the Weber Group delivers tailored solutions through its subsidiary W+P Weber and Partner AG, meeting the specific needs of its clients. The Weber Group stands for quality, innovation, and sustainable value creation in the construction and real estate sectors.

About Mitipi:

Mitipi AG is an innovative Swiss company specializing in the development of intelligent security solutions. Its award-winning product, KEVIN®, offers a unique system that deters potential burglars through realistic presence simulation, enhancing safety in homes, apartments, and offices. The company prioritizes user-friendliness, data protection, and energy efficiency to provide customers with a reliable and effective security experience.
